

A mosaic artwork featuring a hand holding a heart. The hand is rendered in shades of orange, brown, and dark brown, with a textured, grid-like pattern. The heart is a light blue color, also with a grid-like pattern. The background is a light blue grid with occasional yellow squares. The overall style is reminiscent of a mosaic or a digital art piece.

The financial support for publication of this thesis was generously provided by the following foundations and companies: European Academy of Dermatology and Venereology, Stichting de Merel, Academic Medical Center foundation, Stichting Jo-Kolk studiefonds, Adriani Stichting, Stichting Plastic, Reconstructive, and Hand Surgery Research Foundation Amsterdam.

The sponsors had no role in the design, execution, analyses, data interpretation, and the decision to submit the results of the studies included in this thesis.

Outcomes for Congenital Melanocytic Naevi

ACADEMISCH PROEFSCHRIFT

ter verkrijging van de graad van doctor
aan de Universiteit van Amsterdam
op gezag van de Rector Magnificus
prof. dr. ir. K.I.J. Maex

ten overstaan van een door het College voor Promoties ingestelde commissie,
in het openbaar te verdedigen in de Agnietenkapel
op vrijdag 29 oktober 2021, te 16.00 uur

door Anne Clarice Fledderus
geboren te Chiavari

TABLE OF CONTENTS

PART I	GENERAL INTRODUCTION	9
Chapter 1	General introduction	13
PART II	CLINICAL CONSIDERATIONS	37
Chapter 2	Neurological symptoms, signs and MRI abnormalities in congenital melanocytic naevi patients and evaluation of routine MRI-screening: systematic review and meta-analysis	41
Chapter 3	Safety and effectiveness of surgical excision of medium, large, and giant congenital melanocytic nevi: a systematic review and meta-analysis	77
PART III	UNIFORMITY IN DOMAINS, OUTCOMES, AND INSTRUMENTS	149
Chapter 4	Protocol for the development of core set of domains of the core outcome set for patients with Congenital Melanocytic Nevi (OCOMEN project)	153
Chapter 5	Outcomes and measurement instruments used in Congenital Melanocytic Naevi research; a systematic review	171
Chapter 6	Development of an international core domain set for medium, large and giant congenital melanocytic nevi as a first step towards a core outcome set for clinical practice and research	207
Chapter 7	Domains and outcomes of the core outcome set of congenital melanocytic naevi for clinical practice and research (the OCOMEN project): part 2	227
Chapter 8	Measurement instruments for the core outcome set of congenital melanocytic naevi and an assessment of the measurement properties according to COSMIN: a systematic review	245
PART IV	GENERAL DISCUSSION AND SUMMARY	285
Chapter 9	General discussion and future perspectives	289
Chapter 10	Summary	305
PART V	ADDENDUM	315
Chapter 11	Portfolio	319
	List of publications	322
	Dankwoord	324
	About the author	328
	Creating meaningful narratives	330
